

Taite Fortey

Back in July, whilst on holiday in Spain, I heard the news that I'd been Selected for the Gloucester Schools' B Squad. I couldn't believe my ears as I'd never played football outside school before and I didn't realise at the time that this would be the best year I'd ever had.

From the first tour till the last tour and everything else in between, I have learnt a lot about myself and developed as a player so much. We've won some games and lost some games and proudly made it to the cup final, only to slip at the last hurdle. The friends I have made will last for ever; we have the shared experience that GPSFA has given us and that will never be forgotten.

As we are now at the end of our GPSFA journey, it is really sad and hard to believe that we will not be training on a Monday and Friday and playing games on a Saturday.

My final point is that the football has been epic, but the mates I've now got and the memories I've made, will be with me forever.
